Explanation of the Articles of the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy every city in Canada.

MOON'S PHASES.—This Table gives the times for the two meridians when the moon passes the geocentric longitude of 0° , 90° , 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, &c. the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45° . When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	$-5' 58''$	$-4' 5''$	$-2' 5''$	$0' 0''$	$+2' 12''$	$+4' 32''$	$+6' 59''$	$+9' 34''$	$+12' 18''$
2nd Correction for each minute of latitude.....	$+ 1.9''$	$+ 2.0''$	$+ 2.1''$	$+ 2.2''$	$+ 2.3''$	$+ 2.5''$	$+ 2.6''$	$+ 2.7''$	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude $43^\circ 20'$...1st correction =	$-4' 5''$	2nd correction =	$2.0 \times 20 = + 40''$
" " $47^\circ 40'$... " =	$+4' 32''$	" " =	$2.5 \times 40 = +1' 40''$
" " $45^\circ 10'$... " =	$0' 0''$	" " =	$2.2 \times 10 = +0' 22''$

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of Toronto.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction both for Toronto and Quebec.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for Toronto. They are not corrected for parallax or refraction.

The column SUN OR MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of Toronto. When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied

any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The column, UPPER TRANSIT OF POLE STAR shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of Toronto. It passes in the morning from April 9 to October 9, and in the afternoon for the rest of the year. On October 9 there will be a second transit, occurring at 11h. 58m. 21s. p.m.

The four last columns, although computed for Toronto, will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a Star, *add* the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1867 there will be two Eclipses of the Sun, and two of the Moon.

I.—An annular eclipse of the Sun, March 5—6, 1867, invisible in Canada.

II.—A partial eclipse of the Moon, March 19, 1867, partly visible at the stations in the annexed table, which gives the local astronomical time at which the different phases that are visible take place. At the time of last contact with the penumbra the point of last contact will be below the horizon.

The first contact with the shadow occurs at 142° from the northernmost point of the moon's limb towards the East, and the last contact at 107° towards the West.

Magnitude of the eclipse (Moon's diameter = 1) 0.603.

The first contact with the penumbra will occur before the rising of the Moon; and at the time of the first contact with the shadow, the Moon, or the point where the first contact with the shadow takes place, will be below the horizon.

The first contact with the shadow occurs at 34° from the northernmost point of the Moon's limb towards the East, and the last contact at 69° towards the West.

Magnitude of the eclipse (Moon's diameter = 1) 0.693.

The mean temperature of the year 1865 was 44° 92, or 10° 75 in excess of the average of 25 years. The deviation of the monthly means above or below their respective averages and irrespective of sign had an average amplitude of 2° 51, the average amplitude in 25 years being 2° 33. The highest temperature was observed on September 14th, when the thermometer marked 90° 5 Fah., and the lowest on February 13th, when -10° was recorded, giving a range of 105° 5 for the year.

The warmest day of the year was August 3rd, having a mean temperature of 76° 67; and the coldest day January 17th, with a mean temperature of 1° 77.

The yearly range of the barometer was 1.647, or 0.036 below the average of the past 25 years. The yearly mean pressure 29.6330 was above the average of the past 18 years by .0197. The highest pressure 30.354 was noted at 9 p.m. on November 10th, the lowest 28.707 at 11 a.m. on 22nd March.

The amount of rain which fell during the year was less than the average of the preceding 24 years by 3.356 in inches. The month in which the greatest amount of rain fell was May, over 17 days, during which period 4.005 inches of water were precipitated. The most average rainy month during the past 24 years was November, with an average fall of 3.765. The most rainy month was September, 1843, when 9.760 inches fell; and the least rainy month was September, 1848, when only 3.115 inches were precipitated.

* The average lowest monthly mean of cloudiness in column (2) is the least of the thirteen monthly means derived each from thirteen years, and does not include the lowest months in each year, as these fall differently in different years. This explains why the *highest* minimum in column (4) should be less than the average minimum. The average value of the greatest as well as of the least monthly means of the several elements, and given in column (2), are similarly obtained, and therefore do not necessarily lie between the numbers in columns (3) and (4).

In the case of the warmest days, or the highest temperatures in each year, and other analogous quantities, the averages in column (2) are derived from the corresponding values in each year, independently of the time of their occurrence, and must of necessity lie between the numbers in columns (3) and (4).

Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 6d. stg. per $\frac{1}{2}$ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per $\frac{1}{2}$ oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

Any fraction of 4 oz. to be charged as a full rate.

On Periodicals posted from the office of publication or by News Agents or Booksellers, to regular subscribers within

the Province, this rate may remain to be collected on delivery, and must in such cases be marked upon the packages and charged in the Letter Bills, but when mailed to go out of the Province such Periodical matter must be prepaid by Postage Stamp. British and United States Periodicals may be posted in Canada by News Agents and Booksellers to regular subscribers in the Province under this regulation.

Transient Periodical matter posted in Canada must in all cases be prepaid by Postage Stamp.

The above rate will be payable on delivery on all Periodical matter received from the United States, except that Canadian Editors may receive Exchange Periodicals from the United States free of Canadian Postage.

POSTAGE RATES ON MISCELLANEOUS MATTER.

Patterns or samples of merchandise and goods for sale may be posted in Canada to be forwarded to any place within the Province, on prepayment by postage stamp of a rate of one cent, per ounce, under the following regulations:

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples however of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The Packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; also a trade mark and numbers, and the price of the article enclosed; *inside*, there must be no enclosure but the samples or patterns themselves; the particulars however of the trade marks, numbers and price, may be marked on the articles themselves, instead of on the outside of the Packet, at the option of the sender.

Any sample or pattern Packet containing a letter, or otherwise violating the conditions of the preceding rules, will be rated and treated as a letter.

The rate of one cent, per ounce is to be prepaid by postage stamp, and, if such rate be not fully prepaid by the stamps affixed, the Packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on pre-payment by postage stamp of a registration fee of 5 cents in addition to the postage rate, and provided such Packets be duly handed in to the post office for registration.

No Packet of samples or patterns must exceed one pound in weight.

These regulations apply only to the transmission of Packets of samples and patterns within the Province of Canada, and will not in any manner interfere with the regulations governing the exchange of samples and patterns with the United Kingdom, or with the foreign countries to which the same advantage extends, namely, France, Belgium, Italy, German States, and Denmark.

No provision as yet exists for the exchange of such matter with the other British Provinces or Colonies, with the United States or with other foreign countries than those above named.

Book manuscript, and printers' proofsheets (whether corrected or not), maps, prints, drawings, engravings, photographs when not on glass or in cases containing glass, and sheet music (whether printed or written), may pass in covers open at the ends or slides, and provided that no letter, or other communication intended to serve the purpose of a letter, be enclosed therein, on pre-payment, when posted in Canada, by postage stamp of the ordinary printed matter rate of one cent, per ounce; or upon payment of that rate on delivery of such matter when received in the mails from the United States.

POSTAGE OF BOOKS, PATTERNS AND SAMPLES.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, France, Italy, and the German States, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Any infringement of the above regulations will render the packet liable to be treated and charged as a letter.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, are now allowed to be sent in bags entirely closed, provided such bags be transparent, so that the officers of the Post Office may be able to satisfy themselves of the contents.

The rule which prohibited the transmission through the Post, as patterns, of articles of cutlery, &c., has been rescinded; and scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the Post as samples, provided they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post Office. Such articles, however, must be so packed that they may be easily examined; and it is made a rule that any packet containing such articles, which may be found to be insufficiently guarded, shall not be forwarded through the Post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed via France.

A packet of patterns or samples sent to France, must not exceed 18 inches in length, width or depth; a packet to any other place abroad must not exceed 24 inches in length or 12 inches in breadth or depth.

A packet of patterns or samples sent to Germany or Belgium must not exceed 8 oz. in weight.

No Packet of patterns or samples must exceed 24 oz. in weight.

Bags entirely closed, even though they may be transparent, must not be used for the transmission of seeds to foreign parts.

No prints or printed matter will be allowed to pass by book post between the United Kingdom and Canada, unless printed on paper, parchment or vellum.

PRACTICE COURT AND CHAMBERS.—One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and business depending in either of said law courts. Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, for such business relating to suits therein as may be transacted by a single judge out of court. Routine business in Chancery Chambers, by a recent order, is also taken before T. W. Taylor, the Judges' Secretary. *Clerk, Common Law*—William B. Heward. *Reporter Common Law Chambers*—Henry O'Brien.

HEIR AND DEVISEE COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be

appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or assignees. — Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*, W. B. Heward.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to Chancery.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Surrogate Clerk*, Sir J. L. Robinson, Bart.

Board of Judges for regulating procedure and duties of Officers in the Surrogate Courts.—J. G. Sprague, Vice-Chancellor, Common Law Judge; J. R. Gowan, County Judge.

COURTS OF QUARTER SESSIONS.—Chairman, the County Judge in each county, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year for trials by jury in cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction.

RECORDERS' COURTS.—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June and September, and third Monday in December. *Recorders*—George Duggan, Toronto; James O'Reilly, Kingston; John E. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

INSOLVENT DEBTORS' COURTS.—By the "Insolvent Acts of 1864 and 1865," 27 & 28 Victoria, cap. 57, and 29 Vic. cap. 18, provision is made "for the settlement of the estates of insolvent debtors, for giving effect to arrangements between them and their creditors, and for the punishment of fraud." In Lower Canada, this enactment applies to traders only. In Upper Canada, to all persons whether traders or non-traders. In these courts, the county court judge in each county presides—the only appointments made in pursuance of this statute being those of "official assignees," who are to be nominated "by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade." This important statute is proving a great boon to the community, in enabling parties who from unavoidable circumstances find themselves paralyzed by hopeless liability to obtain relief, and recomence business.

DIVISION COURTS.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each judicial district is divided into court divisions, and courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of Quarter Sessions.

THE NEW MUNICIPAL MANUAL;

CONTAINING

THE NEW CONSOLIDATED MUNICIPAL AND ASSESSMENT ACTS,

WITH COPIOUS EXPLANATORY AND PRACTICAL NOTES,
AND A FULL ANALYTICAL INDEX.

BY ROBERT A. HARRISON, D.C.L.,

BARRISTER-AT-LAW.

THE EDITOR having made Municipal Law his particular study, the forthcoming volume will be deserving of great confidence and wide support. Besides the Municipal Act the work will contain the Consolidated Assessment Act fully annotated. This will be in addition to what the former edition contained. These Acts are nearly allied in their purposes, and it is satisfactory to have both consolidated, and will be still more satisfactory to have both annotated by a gentleman of Mr. HARRISON's experience.

The price will be \$4 per copy. The Index accompanying will be the most complete of the kind ever compiled in Upper Canada. Nothing will be left undone either on the part of the Editor or Publishers to make the work as complete and reliable as possible. Persons paying in advance will be entitled to receive the work in numbers of 96 pages each. This will enable those who receive the parts in advance in good time to prepare themselves for the administration of the law in the ensuing year. The first part, now ready, contains the part of the Act regarding the qualification of candidates, voters, holding of elections, &c.

FROM 30 years' manual practice in the above branch, and having constructed most of the Machines now at work in various parts of the world, is enabled to offer the most complete and durable machinery, and by confining his manufactory to only two branches, namely, SODA WATER MACHINES and DIVING APPARATUS, and his whole attention being given to these branches, it must be obvious that every part has been the subject of his most careful study, so that any derangement of parts can hardly occur. All the Machines made by S. BARNETT are constructed under his own superintendence, and proved to four times the pressure they are ever required to be worked at. S. B. being so well aware of all the requirements of persons using Machinery where mechanical assistance cannot be obtained, has paid full attention to this point, as the great number of testimonials in his possession will prove. He has also lately introduced larger condensers, and more powerful frames than those previously in use, while his prices have not been increased.

THE CANADIAN ALMANAC,

FOR THE YEAR 1868.

Since the last issue of the CANADIAN ALMANAC the Confederation of the Provinces has become an accomplished fact, and henceforth New Brunswick and Nova Scotia will be one with us in the DOMINION OF CANADA. It will be seen by reference to our pages, that we have lost no time in extending our information to meet the requirements of the Lower Provinces, and thus making our title under its wider meaning as true as heretofore. The calculations of the rising and setting of the sun and moon are given for Fredericton and Halifax, in addition to, as in former years, Toronto and Quebec. All the governmental information of the Dominion generally, and of the four Provinces separately, is given in full, together with such local information as we have been able to procure. We hope in future to supply this as complete for all the Provinces as in the past we have for Upper and Lower Canada. We have the satisfaction of knowing that the value of the CANADIAN ALMANAC is increasingly appreciated year by year. Its tables and statistics are quoted and copied as authoritative, while its information is of such a character that no merchant or professional man can dispense with it.

Explanation of the Articles of the Calendar.

These pages are calculated for Toronto, Quebec, Fredericton and Halifax, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times for the four meridians when the moon passes the geocentric longitudes of 0° , 90° , 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45° . When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	$-5' 58''$	$-4' 5''$	$-2' 5''$	$0' 0''$	$+2' 12''$	$+4' 32''$	$+6' 59''$	$+9' 34''$	$+12' 18''$
2nd Correction for each minute of latitude.....	$+ 1.9''$	$+ 2.0''$	$+ 2.1''$	$+ 2.2''$	$+ 2.3''$	$+ 2.5''$	$+ 2.6''$	$+ 2.7''$	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude $43^{\circ} 20'$...1st correction = $-4' 5''$	2nd correction $+ 2.0 \times 20 = +$	$40''$
" " $47^{\circ} 40'$... " = $+4' 32''$	" " $+ 2.5 \times 40 = +$	$1' 40''$
" " $45^{\circ} 10'$... " = $0' 0''$	" " $+ 2.2 \times 10 = +$	$0' 22''$

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of Toronto.

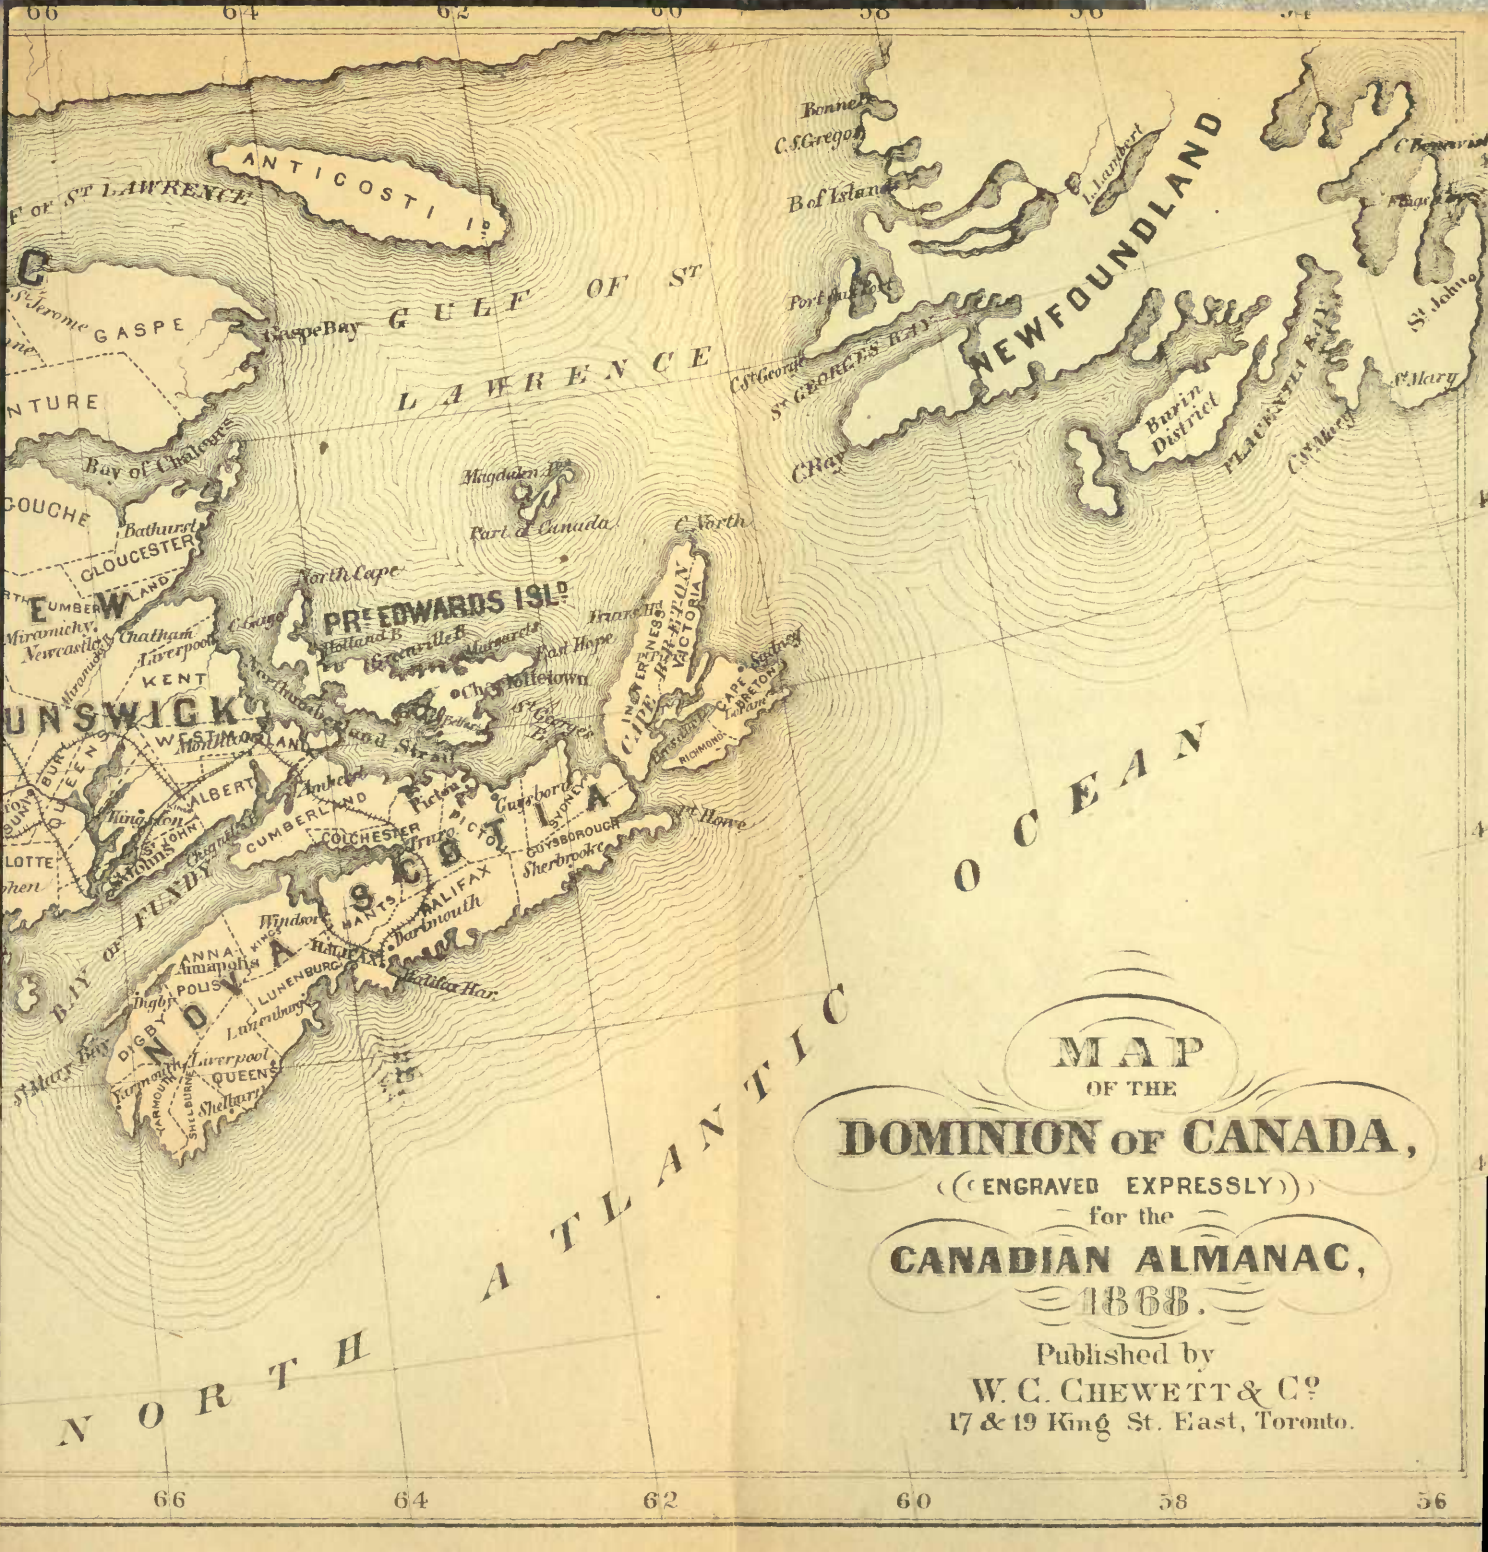

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto, Quebec, Fredericton and Halifax.

DOMINION OF CANADA

W.C. CHERRY & SONS
1000-1001
1000-1001

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec, Fredericton and Halifax.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for Toronto. They are not corrected for parallax or refraction.

The column SUN ON MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of Toronto, When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The column, UPPER TRANSIT OF POLE STAR shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of Toronto. It passes in the morning from April 9 to October 9, and in the afternoon for the rest of the year. On October 9 there will be a second transit, occurring at 11h. 58m. 21s. p.m.

The five last columns, although computed for Toronto, will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

From the time of the upper transit of the polestar may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a Star, *add* the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ, Julius Caesar, having, by the help of Sosigenes, an Alexandrian philosopher, come to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextile*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Caesar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and

now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and to keep the year right in future, the overplus being 18 hours, 37 minutes, and 10 seconds in a century, he ordered that every centennial year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should *not* be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained sway in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to eleven days. An act of parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centennial years should, as in Pope Gregory's arrangement, not be bissextile or leap-years. It has consequently arisen—1800 not having been a leap year—that the now and old styles now differ by *twelve* days, our first of January being equivalent to the 13th old style. In Russia alone, of all Christian countries, is the old style still retained; wherefore it becomes necessary for one writing in that country to any foreign correspondent, to set down his date thus: ^{12th} March, or ^{28th} September, ^{7th} October; or, it may be, ^{28th} December, 1860, ^{14th} January, 1861.

LETTER RATES.

Letters posted in Canada addressed to any place within the Province pass, if prepaid, for 5 cents per $\frac{1}{2}$ oz., but if posted unpaid such letters are charged 7 cents per $\frac{1}{2}$ oz.

On Letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per $\frac{1}{2}$ oz., with optional prepayment.

The rate on Letters to the United Kingdom is, by Canadian Packet,

Not exceeding $\frac{1}{2}$ oz. - - - - - 12 $\frac{1}{2}$ cents.

Exceeding " and not exceeding 1 oz. - - 25 "

and so on, increasing one rate of postage for each additional half ounce.

And by Cunard Packet, 17 cents per $\frac{1}{2}$ oz., &c.

Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States, is 10 cents per $\frac{1}{2}$ oz. " to Cuba - - - - - 20 cents per $\frac{1}{2}$ oz.

There is a further charge on delivery of letters addressed to British Columbia.

Letters - - - - - 10 cents per $\frac{1}{2}$ oz.

Newspapers - - - - - 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 6d. stg. per $\frac{1}{2}$ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per $\frac{1}{2}$ oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America - - - - - 2 cents.

On Letters for the United States - - - - - 5 "

On Letters for the United Kingdom - - - - - 8 "

On Letters for British Colonies or Possessions, sent via England - - - - - 25 "

On Letters for France and other Foreign Countries, via France an amount equal to the postage rate.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter

can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

MISCELLANEOUS CHARGES.

* The charge on Parcels by the Parcel Post, which is limited to places within the Dominion, is 25 cts. per lb. (with 3 cts. additional if Registered.)

One cent per oz., payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether sealed or unsealed, are liable to letter postage). Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in Canada, British North America generally, or the United States.

The postage upon Prices Current addressed to the United Kingdom is two cents each, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office to be returned to the senders.

These rates must invariably be prepaid on transmission from Canada. Photographs, provided they are not upon glass or in cases containing glass, may be forwarded to Great Britain, &c., at the Book rate of postage. Book Packets addressed to the United Kingdom may be registered on payment of the ordinary registration fee, viz., 8 cents in addition to the postage.

All book packets must be open at both ends or both sides to allow of the inspection of the contents.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, if paid quarterly in advance by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 40 cents per quarter.
" " 3 " 20 " "
" " 2 " 13 " "
" " 1 " 6 $\frac{1}{2}$ " "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 1 cent each, by postage stamp, or they cannot be forwarded—except only British Newspapers distributed to regular subscribers by Canadian Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, are charged one cent each on delivery.

PERIODICAL PUBLICATIONS.

The rate on all Periodicals, other than Newspapers, passing by mail in Canada, save such as may be addressed to or received from the United Kingdom, and such as are exempted from postage by Statute, will henceforth be one cent, *per oz.* weight of package containing periodical matter, whether the package contain one or more numbers.

Any fraction of 4 oz. to be charged as a full rate.

On Periodicals posted from the office of publication or by News Agents or Booksellers, to regular subscribers within the Province, this rate may remain to be collected on delivery, and must in such cases be marked upon the packages and charged in the Letter Bills, but when mailed to go out of the Province such Periodical matter must be prepaid by Postage Stamp. British and United States Periodicals may be posted in Canada by News Agents and Booksellers to regular subscribers in the Province under this regulation.

Transient Periodical matter posted in Canada must in all cases be prepaid by Postage Stamp.

The above rate will be payable on delivery on all Periodical matter received from the United States, except that Canadian Editors may receive Exchange Periodicals from the United States free of Canadian Postage.

Periodicals, printed and published in Canada, may be posted addressed to any place in the United Kingdom by Canadian Packet, on prepayment by Postage Stamp of two cents each number.

This rate will be applicable to all classes of Canadian Periodicals posted as above for the United Kingdom, the exemptions to which certain classes of Canadian Periodicals are entitled, extending to such numbers only, as are addressed from the Office of publication to places within the Province.

No package of periodicals can be sent through the Post if it exceed 48 oz. in weight.

POSTAGE RATES ON MISCELLANEOUS MATTER.

Patterns or samples of merchandise and goods for sale may be posted in Canada to be forwarded to any place within the Province, on prepayment by postage stamp of a rate of one cent, per ounce, under the following regulations:

Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples however of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The Packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; also a trade mark and numbers, and the price of the article enclosed; *inside*, there must be no enclosure but the samples or patterns themselves; the particulars however of the trademarks, numbers and price, may be marked on the articles themselves, instead of on the outside of the Packet, at the option of the sender.

Any sample or pattern Packet containing a letter, or otherwise violating the conditions of the preceding rules, will be rated and treated as a letter.

The rate of one cent, per ounce is to be pre paid by postage stamp, and, if such rate be not fully pre-paid by the stamps affixed, the Packet is to be rated with the deficient postage and a fine of five cents in addition.

Packets of samples and patterns may be registered on prepayment by postage stamp of a registration fee of 5 cents in addition to the postage rate, and provided such Packets be duly handed in to the post office for registration.

No Packet of samples or patterns must exceed one pound in weight.

These regulations apply only to the transmission of Packets of samples and patterns within the Province of Canada, and will not in any manner interfere with the regulations governing the exchange of samples and patterns with the United Kingdom, or with the foreign countries to which the same advantage extends, namely, France, Belgium, Italy, German States, and Denmark.

No provision as yet exists for the exchange of such matter with the other British Provinces or Colonies, with the United States or with other foreign countries than those above named.

Book manuscript, and printers' proof-sheets (whether corrected or not), maps, prints, drawings, engravings, photographs when not on glass or in cases containing glass, and sheet music (whether printed or written), may pass in covers open at the ends or sides, and provided that no letter, or other communication intended to serve the purpose of a letter, be enclosed therein, on pre-payment, when posted in Canada, by postage stamp of the ordinary printed matter rate of one cent, per ounce; or upon payment of that rate on delivery of such matter when received in the mails from the United States.

POSTAGE OF BOOKS, PATTERNS AND SAMPLES.

Patterns of merchandise, and samples, may be forwarded between Canada and the United Kingdom, France, Italy, and the German States, by the Canadian Packet mails, at book post rates, and subject to the following conditions:

There must be no writing or printing other than the address of the person for whom the packet is intended, the manufacturer's or trade mark and number, and price of the article.

Any infringement of the above regulations will render the packet liable to be treated and charged as a letter.

Samples of seeds, drugs, and similar articles intended for delivery within the United Kingdom, are now allowed to be sent in bags entirely closed, provided such bags be transparent, so that the officers of the Post Office may be able to satisfy themselves of the contents.

The rule which prohibited the transmission through the Post, as patterns, of articles of cutlery, &c., has been rescinded; and scissors, knives, razors, forks, steel pens, nails, keys, watch machinery, metal tubing, pieces of metal or ore, and such like articles, are now allowed to be forwarded by the Post as samples, provided they be packed and guarded in so secure a manner as to afford complete protection to the contents of the mail bags, and to the persons of the officers of the Post Office. Such articles, however, must be so packed that they may be easily examined; and it is made a rule that any packet containing such articles, which may be found to be insufficiently guarded, shall not be forwarded through the Post.

None of the articles named in the next preceding paragraph may be sent as patterns or samples to any place abroad, except Germany, Belgium, and the British Colonies, and not to these places when addressed *via* France.

A packet of patterns or samples sent to France, must not exceed 18 inches in length, width or depth: a packet to any other place abroad must not exceed 24 inches in length or 12 inches in breadth or depth.

A packet of patterns or samples sent to Germany or Belgium must not exceed 8 oz. in weight.

No Packet of patterns or samples must exceed 24 oz. in weight.

Bags entirely closed, even though they may be transparent, must not be used for the transmission of seeds to foreign parts.

No prints or printed matter will be allowed to pass by book post between the United Kingdom and Canada, unless printed on paper, parchment or vellum.

PENAL CLAUSES.

The Post Office Act contains the following penal clauses:

1. If any person uses or attempts to use in pre-payment of postage on any letter or mailable thing posted in this Province, any postage stamp which has been before used for a like purpose, such person shall be subject to a penalty of not less than ten and not exceeding forty dollars for every such offence, and the letter or other mailable thing on which such stamp has been so improperly used may be detained, or, in the discretion of the Postmaster General, forwarded to its destination, charged with double the postage to which it would have been liable if posted unpaid.

2. To enclose a letter or letters, or any writing intended to serve the purpose of a letter, in a parcel posted for the Parcel Post, or in a packet of samples or patterns posted to pass at the rate of postage applicable to samples and patterns, or to inclose a letter or any writing to serve the purpose of a letter, or to inclose any other thing, in a newspaper posted to pass as a newspaper at the rate of postage applicable to newspapers (except in the case of the accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers) shall in each case be an offence punishable by a penalty of not less than ten and not exceeding forty dollars in each case.

For additional clauses see *Can. Almanac* for 1867, p. 48.

POST OFFICE DEPARTMENT, NEW BRUNSWICK.

GENERAL POST OFFICE, NEW BRUNSWICK.

Postmaster-General, Hon. John McMillan; Secretary, Wm. Paisley; Accountant, W. H. Smithson; Clerks, Wm. C. Whitaker, Wm. A. Black, and Chas. A. Murray; Messenger, Wm. Bannister.

LETTER RATES.

The postage on letters mailed in New Brunswick, addressed to any place within the Province, is 5 cents per half ounce, if pre-paid; if not pre-paid, it is 7 cents. On letters to all parts of the United States, the postage is 10 cents per half ounce.

Letters to and from England, per Cunard packets via Halifax, are charged 6d. sterling, or 12½ cents currency, per half ounce; and via New York, 8d. sterling, or 17 cents currency, per half ounce, if pre-paid. If mailed unpaid, they are charged 6d. sterling additional on delivery.

Letters to and from England, per Canadian packets via Quebec, are charged 6d. sterling, or 12½ cents currency, per half ounce; and via Portland, 8d. sterling, or 17 cents currency, per half ounce, if pre-paid. If mailed unpaid, they are charged 6d. sterling additional on delivery.

REGISTRATION.

The system of registration is applicable to all description of letters, without distinction, whether they contain articles of value or not. It also applies to parcels. The charge, in addition to postage, is 5 cents, when pre-paid; and 10 cents, in addition to postage, when unpaid. The charge for registration of letters for the United Kingdom is 8 cents.

PARCELS.

Parcels closed at the ends and sides can be sent by mail, throughout the Province, at a rate of 25 cents per lb.

The weight of each parcel is not to exceed 5 lbs., nor the size to exceed 1 foot in length or breadth, or 6 inches in thickness. The parcel must not contain any glass, liquid, nor any substance liable to do injury to the mail, under the penalty of a forfeiture of the parcel if discovered. The parcel is not to contain any writing. Registration fee 5 cents. Parcels must be pre-paid by stamps. The sender, by writing his name on the outside, can have the parcel returned in case of failure to reach the person addressed.

NEWSPAPERS AND PERIODICALS.

Newspapers published in the Province, as well as transient papers, are forwarded through the Provinces, and to England (via Halifax), free of postage. If sent to England by way of the United States, the postage (2 cents) is collected at their destination.

NEWSPAPERS TO OR FROM ENGLAND.

If by way of Halifax per Cunard steamers, free. By way of the United States, 2 cents each on delivery, being the American transit charge.

BOOKS, PERIODICALS, PRINTED MATTER, &c.

The above pass through the Post Office free, if under 2 ounces in weight; if 2 ounces or upwards, at the rate of 2 cents for every 4 ounces.

All Printed Books, Magazines, Reviews, Pamphlets, or Packets of Patterns, Newspapers, or other matter, intended for transmission by Post between New Brunswick and the United Kingdom, must be restricted to two feet in length and one foot in width and depth.

Printed Circulars, in unsealed envelopes, not exceeding half an ounce, are charged 1 cent each, and must be pre-paid. Circulars from other countries are liable to a tax of 1 cent each, which is collected on delivery.

POSTAGE STAMPS.

Postage Stamps are provided at the respective value of 1 cent for circulars; 2 cents for drop letters; 5 cents for ordinary Provincial letters; 10 cents for United States rate; 12½ cents per Cunard Steamer, via Halifax; 17 cents, via United States, for England.

MONEY ORDERS.

All Money Order Post Offices are authorized to issue and pay Provincial Money Orders (under direction of the Postmaster General) for any sum not exceeding in any one order \$100.

When Money Orders exceeding \$100 in aggregate amount are issued in one day and to the same person, by one or more offices upon another office, the Postmaster of the office drawn upon (if necessary) may delay the payment of such orders for six days.

All Money Orders shall be drawn upon printed forms supplied by the Post Office Department; and no order will be valid or payable unless given upon the regular printed forms.

Persons applying for Money Orders will be required to state the particulars upon a form of application provided for that purpose. Parties procuring Money Orders should examine them carefully, to see that they are properly filled up and stamped. This caution will appear sufficiently important when it is understood that an order defective in any important respect will throw difficulties in the way of its payment.

Postmasters will not pay an order to a second person without the written endorsement of the payee, thus:

Pay to the order of ——— (the name of the second person to fill the blank) for value received.

The commission charged for Money Orders, drawn and payable in New Brunswick, is as follows:

On orders not exceeding \$10, 5 cents; exceeding \$10, and not exceeding \$20, 10 cents; exceeding \$20, and not exceeding \$30, 15 cents; exceeding \$30, and not exceeding \$40, 20 cents; exceeding \$40, and not exceeding \$50, 25 cents; exceeding \$50, and not exceeding \$60, 30 cents; exceeding \$60, and not exceeding \$70, 35 cents; exceeding \$70, and not exceeding \$80, 40 cents; exceeding \$80, and not exceeding \$90, 45 cents; exceeding \$90, and not exceeding \$100, 50 cents.

The following Post Offices in New Brunswick are specially authorized to issue Sterling Money Orders payable in the United Kingdom, Ontario, Quebec, Nova Scotia, and Prince Edward Island, for any sum not exceeding in one order £10 (except Ontario, Quebec and Nova Scotia, which is extended to £20), namely:

Chatham,	Richibucto,	Sackville,
Dalhousie,	St. John,	Shediac,
Fredericton,	St. Andrews,	Woodstock.

The commission charged for Sterling Money Orders on Ontario, Quebec, Nova Scotia, and Prince Edward Island:

On orders not exceeding £5, 25 cents; exceeding £5, and not exceeding £10, 50 cents, &c.

Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, for such business relating to suits therein as may be transacted by a single judge out of court. Routine business in Chancery Chambers, by a recent order, is also taken: before T. W. Taylor, the Judges' Secretary. *Clerk, Common Law Chambers*—W. B. Heward. *Reporter Common Law Chambers*—Henry O'Brien. *Reporter Chancery Chambers*—Charles W. Cooper.

HEIR AND DEVISEE COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or assignees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*, W. B. Heward.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to Chancery.

SUBROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. RECORDERS' COURTS.—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June and September, and third Monday in December. *Recorders*—George Duggan, Toronto; James O'Reilly, Kingston; John E. In Lower Canada, this enactment applies to traders only. In Upper Canada, to all persons whether traders or non-traders. In these courts, the county court judge in each county presides—the only appointments made in pursuance of this statute being those of "official assignees," who are to be nominated "by the Board of Trade at any place, or the council thereof, within the county or district in which such Board of Trade exists, or in any county or district adjacent thereto in which there is no Board of Trade." This important statute is proving a great boon to the community, in enabling parties who from unavoidable circumstance find themselves paralyzed by hopeless liability to obtain relief, and recommence business.

DIVISION COURTS.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. The Divisions are established by the Courts of Quarter Sessions.

The many improvements made in the arrangement of the College Boarding House have been found to add very materially to the comfort of the boarders. A large paved Ball Court and a Gymnasium, fitted up with the most approved modern appliances, and a spacious play-ground and cricket ground afford ample facilities for out-door exercise and amusement within the College bounds. The Boarding House is conducted strictly as an integral part of the Institution, its disbursements paid out of, and its returns paid into the general funds. Prizes of books and certificates of honor are given every year to those who distinguish themselves in any of the subjects taught in the College. His Excellency the Governor General offers annually a valuable Prize of Books for the best examinations in the higher departments of the College Curriculum. At the Annual Public Examination in June, eight Exhibitions are

competed for, varying in value from \$120 to \$40 per annum. Competition for them all is open to the Grammar Schools of the whole Province. More than 2,500 of the youth of the Province have received their education, in whole or in part, in Upper Canada College. DR. COLBY'S ANTI-COSTIVE AND TONIC PILLS

ARE a safe and reliable remedy in all diseases of the Stomach, Liver and Bowels. They are no Quack Medicine, puffed up by high sounding testimonials from imaginary people, but are the result of forty years experience of a first-class physician, and their extraordinary success is due to the fact that they answer exactly their name. The formula from which they are prepared, is based on sound, scientific principles, and has received the unqualified approbation of the medical profession. They do not profess to be a cure all, but for all diseases arising from any derangement of the Stomach, Liver and Bowels, they furnish an effectual remedy. We have in our possession, over one hundred testimonials from physicians who have used them in their practice, and highly approve of them, among which are the following:

The undersigned physicians cheerfully certify to the high professional standing of Dr. Colby, of Stanstead, one of the oldest and best physicians, and to the excellent qualities of his "ANTI-COSTIVE and TONIC PILLS," which we have used in our practice, and highly approve.

Jacob's Rheumatic Liquid

Has been before the public for upwards of twenty years, and such are its merits that it is now justly considered as an indispensable article in every family where it is known.

It has never been forced on public attention by flaming advertisements. of remarkable cures that never had any existence, but by its own peculiar value as an unfailing remedy, it has worked its way into public favor.

Having a wonderful effect when taken internally, in quickening the circulation of the blood, it is invaluable to persons predisposed to Paralysis, or subject to attacks of Heart Disease. In cases of Dyspepsia, where food distresses, it affords prompt relief, and continued for a short time, sets everything right.

The name of the medicine is blown in each bottle of the genuine, and the purposes for which it was intended, as well as the mode of using, attached.

SODA, POTASS, SELTZER,
CARRARA, LITHIA,
MAGNESIA,
AND TONIC WATERS, ETC.

LEMONADE, GINGER BEER,
ORANGEADE, GINGERADE,
NECTAR, AND
CHAMPAGNE CIDER.

FULL DIRECTIONS FOR PREPARING ALL THE ABOVE DRINKS ARE SENT WITH EACH MACHINE. A List, containing the directions of upwards of 200 Machines now in use in the U. Kingdom, forwarded on application.

Many of these Machines have been in constant use for 25 years without requiring any repairs.

BARNETT, by confining his manufactory to only two branches, namely, SODA WATER MACHINES and MIXING APPARATUS, and his whole attention being given to these branches, it must be obvious that every part has been the subject of his most careful study, so that any derangement of parts can hardly occur. All the Machines made by S. BARNETT are constructed under his own superintendence, and proved to four times the pressure they are ever required to be worked at. S. B. being so well aware of all the requirements of persons using Machinery, where *mechanical assistance cannot be obtained*, has paid full attention to this point, as the great number of testimonials in his possession will prove.

The number of dozen per day that it is stated each Machine will make, means hand labour, but if steam or other power is used, the product is greatly increased.

These "Improved" Soda Water Machines are warranted superior to any hitherto manufactured for solidity of construction, power and simplicity. They are also admirably calculated for exportation, as they are packed in one case, without taking them to pieces, and can be set to work, and Soda Water or Lemonade made from them in half-an-hour after arrival. These Machines are also used to manufacture Ginger Beer, Orangeade, Nectar, Seidlitz, Carrara, &c.

Manager—W. M. RAMSAY.

Inspector of Agencies—RICHARD BULL.

THIS Company was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions of Great Britain. Its income exceeds £650,000 per annum, and its Accumulated and Invested Funds amount to upwards of Three and a half Millions Sterling. Its profits have been very large, and persons assured have derived very valuable benefits from their connection with the Company. The STANDARD has also acquired a marked character for liberal management, being the first Institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability in other ways.

THE RATES OF THE COMPANY

which have been calculated on data derived from the most authentic sources, will be found moderate, and, looking to the facilities and advantages afforded, they are undoubtedly more advantageous and less expensive than those of any other Office transacting the same class of business.

Every information as to Life Assurance, with Tables of Rates, will be furnished at Head Office, or at any of the Agencies of the Company.

WM. A. CURRY,

REAL ESTATE AGENT,

HOUSE AND LAND AGENCY; RENTS COLLECTED; LOANS MADE ON REAL ESTATE.

OFFICE, 84 GREAT ST. JAMES STREET, MONTREAL.

TO AGRICULTURISTS, RAILWAY CONTRACTORS, AND OTHERS.—*FENCE FOR SALE*.—HUGHES' Portable, Self-Connecting, Self-Supporting Wooden Fence, patented May, 1867.

The proprietor invites applications for the purchase of the right to construct and use the above-named fence. Rights will be sold for the several counties and townships in the Dominion of Canada at very moderate prices, as the owner wishes to encourage the general adoption of his invention, which he believes is unsurpassed for economy and convenience.

The cost of plain fencing is about \$8 per lineal acre, which can be set up by two labourers at the rate of about 25 acres per day. It sustains itself without pickets, can be removed almost instantaneously in cases of fire, and is particularly adapted for low lands subject to periodical inundations, as it can be removed each fall and replaced in the spring at a mere nominal cost. The facility of removal and re-erection commends its adoption for Railway and Turnpike Road Fencing, where the snow-drifts caused by the permanent fences are an annually recurring source of expense and annoyance. Rough, stony or uneven surfaces afford no impediment to the use of this fence, as the panels can be made so as to suit any elevation or depression of the ground. It can be set up in angular, square, pentagon, hexagon, or any desired form, so that efficiency and elegance may be combined when it is used for the protection of newly planted trees, dividing off a field, hurdles or farms, parks, and ornamental plantations.

A model can be seen, and further particulars be obtained, at the office of the undersigned. Applications by letter to be post-paid.

Active men willing to canvass the country, may invest a small capital advantageously, as they will be very liberally dealt with.

Wm. A. CURRY, Real Estate Agent,

84 Great St. James Street, Montreal.
